

SPS Intersection Layout Guide -

**Print Page 1:1, No Scaling. Check Reference Dimension Prior to Use.

1. From Shop Drawings, find centerline of horizontal and vertical reveals.
2. Starting with Vertical Reveals, transfer measurements to wall.
3. Using a laser, or spirit-level, mark Vertical Centerlines on the wall.
4. Now, transfer horizontal measurements to wall.
5. Using a laser, or spirit-level, mark Horizontal Centerlines on the wall.
6. Once Vertical and Horizontal centerlines are marked, take the intersection layout guide, and attach to the first intersection.
7. Transfer layout lines to the wall, and repeat until all intersections are detailed.
